

The International School of Curaçao (ISC) is a non-profit, US-based curriculum school serving the needs of students ages 2-19 with English as the language of instruction. ISC is committed to excellence in education by offering a rigorous curriculum with a highly trained teaching staff. ISC currently holds three recognized accreditations with AdvancEd/SACS, the Council of International Schools (CIS), and the International Baccalaureate (IB) Diploma Program, all of which are a testament to the quality of education ISC offers.

In addition to the excellent academic program, non-English speakers are immersed into our English as a Second Language (ESL) program, within the school schedule, to help them build their English skills and ensure their success in the day-to-day classes.

ISC provides as well numerous opportunities for students to be involved in extra-curricular and enrichment programs that match their interests and build on their strengths. For more detailed information regarding these programs, as well as our academic programs, visit [www.isc.cw](http://www.isc.cw)

ISC embraces multiculturalism and diversity which is embodied in our student and teacher population; it is an integral part of the school's strength and uniqueness. To support the many cultures and languages, ISC has various systems in place to ensure student success regardless of the child's background or academic proficiency. A strong Spanish and Dutch language program allow ISC's graduates to study in the Netherlands or in the region, as they pursue their goals of higher education. Most of our students pursue higher education in the United States, Canada, and Europe while some choose to study in the Caribbean or South America. Explore the wonders of international education for your students. The International School of Curaçao is here to assist you and provide the best education for your child on the island of Curaçao.
